

Math 347 - Fundamental Mathematics - Sections F1 and G1 - Fall 2020

Instructor: Dr. Matthew Strom Borman

Course Website: Moodle on learn.illinois.edu

Email: msborman@illinois.edu

Office Hours: 7-9 PM Mondays and Wednesdays and by appointment.

Textbook: Introduction to Abstract Mathematics, by Donaldson and Pantano

Test Schedule:

Midterm I: Wednesday, September 23

Midterm II: Wednesday, October 28

Midterm III: Wednesday, December 2

Final:

<https://registrar.illinois.edu/fall-2020-final-exam-scheduling-guidelines/>

Grade Breakdown: Homework 10%, Participation 5%, Highest two Midterms 18% (each), Lowest Midterm 9%, Final 40%

If are going to be absent from a class session (due to time zone issues or other reasons) you may cover your participation as follows:

Before 2pm (Urbana time) upload a pdf of your answers to the questions from the corresponding video lecture onto the course website (graded pass/fail).

The lowest two homework grades will be dropped when computing grades and late homework will not be accepted nor graded.

Grades will be assigned via a curve that will be at least as generous as 90%+ = A, 80%+ = B, etc, but the precise function will be determined at the end of the term (historically the A/B cut off has been in the mid 80's for my courses).
