

# Math 447 E13/E14: Spring 2020

## Instructor: Oanh Nguyen

Time: MWF 11:00-11:50

Registered students can access the course at <https://learn.illinois.edu/course/view.php?id=56941>

Textbook: Elementary Analysis: The Theory of Calculus by Kenneth Ross, Second Edition (2013), ISBN: 978-1461462705, Springer

Ebook at UI library: <https://link.springer.com/book/10.1007%2F978-1-4614-6271-2>

Midterms: There will be three midterm exams: Feb 15 (Monday), March 15 (Monday) and April 15 (Wednesday).

Final exam TBA.

Homeworks: Homework will be assigned weekly on Wednesdays.

Quizzes: There is a quiz after every lecture. Quiz grades count toward Participation.

Grade components: Homeworks: 20%, Quizzes 4%, Participation: 3%, Midterms: 16% each, Final: 25%.

Letter grades: 90% guarantees an A, 75% - a B, 60% - a C, and 50% - a D.

Course format:

I will upload pre-recorded lectures by 9AM the day before our class times. There is a short quiz following each of these lectures and is due right before class times. If you have any questions about these lectures or anything else concerning the course, add your questions to our forum on Campuswire. If you have answers, please go ahead and provide your answers there.

Participation during class times on Mondays and Fridays are counted towards the final total grades. During these meetings, we will

- Discuss unanswered questions on the forum
- Answer any questions that the students have about the current lecture or any of the past lectures
- Answer any questions about the homework

If we run out of time during class times and you still have questions, please ask on our forum. Class times on Wednesdays will be optional office hours.
